## Company Overview

Lehman Brothers Private Equity Partners Limited (“LBPE” or “the Company”) is a closed-end investment company registered under the laws of Guernsey managed by Lehman Brothers’ Private Fund Investments Group and its affiliates (together, the “Investment Manager”). We invest in private equity funds managed by leading sponsors, including funds of funds managed by the Investment Manager, and make direct private equity investments alongside leading sponsors (“co-investments”). Our investment objective is to produce attractive returns on our capital from our private equity investments while managing investment risk through portfolio diversification across asset class, vintage year, geography, industry and sponsor.

## Investment Manager Commentary

During April, LBPE committed approximately \$7.0 million to Summit Partners Europe Private Equity Fund, a growth equity fund focused on investing in profitable, growing companies throughout Europe, and completed a direct co-investment alongside Catamount Ventures in Seventh Generation, Inc., a consumer products company that provides authentic, safe, and environmentally responsible products for a healthy home. Including co-investment activity, the Company invested an aggregate \$13.3 million in private equity investments and received an aggregate \$5.7 million of distributions during the month. As a result, LBPE’s private equity investment level increased to 80.9% of total net asset value at 30 April 2008. Approximately 39% of the capital contributions in April were invested in buyout funds targeting energy related and financial services investments, with the remaining contributions spread across other buyout, distressed, growth equity and venture capital investments. Nearly all of the distributions received during the month were attributable to a partial realization of LBPE’s co-investment in MaRI Holdings and a meaningful realization from the Doughty Hanson & Co. IV portfolio.

Over the course of the month, LBPE’s portfolio experienced net appreciation in value as a result of positive mark-to-market adjustments on credit-related investments and publicly traded equity securities that LBPE is exposed to through private equity funds and co-investments. These increases in value were offset principally by negative foreign exchange adjustments. Including the revaluation of public securities and all other valuation adjustments, LBPE’s unaudited net asset value per share was \$10.53 at 30 April 2008, representing an increase of 0.3% compared to the unaudited 31 March 2008 net asset value per share of \$10.50 and an increase of 1.5% compared to the audited 31 December 2007 net asset value per share of \$10.37.

## Net Asset Value Development

## Valuation Methodology

The Company carries its investments on its books at fair value in accordance with accounting principles generally accepted in the United States. The Company uses the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying funds or funds of funds, on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events.

1. Figures provided are unaudited and subject to change. Certain numbers may not total due to rounding.
2. The diversification analysis by asset class and investment type is based on the net asset value of underlying fund investments and co-investments (including unfunded commitments on a total private equity exposure basis). The diversification analysis by vintage year, geography and industry is based on the diversification of underlying portfolio company investments at fair value as estimated by the Investment Manager. The vintage year diversification also includes an allocation of net cash flows and valuation adjustments made since financial statements were last received from the investment sponsor. Determinations regarding asset class, geography and industry, as well as the allocation of unfunded commitments on a total private equity exposure basis, also represent the Investment Manager's estimates. Accordingly, the actual diversification of our investment portfolio and the diversification of our investment portfolio on an ongoing basis may vary from the foregoing information.
