Company Overview

Lehman Brothers Private Equity Partners Limited (“LBPE” or “the Company”) is a closed-end investment company registered under the laws of Guernsey managed by Lehman Brothers’ Private Fund Investments Group and its affiliates (together, the “Investment Manager”). We invest in private equity funds managed by leading sponsors, including funds of funds managed by the Investment Manager, and make direct private equity investments alongside leading sponsors (“co-investments”). Our investment objective is to produce attractive returns on our capital from our private equity investments while managing investment risk through portfolio diversification across asset class, vintage year, geography, industry and sponsor.

Investment Manager Commentary

During December 2007, LBPE invested an aggregate \$5.6 million in two direct co-investments: Firth Rixson, plc and Kyobo Life Insurance Co. Throughout the month, the Company also invested an aggregate \$21.5 million in private equity through capital calls from funds and received an aggregate \$4.7 million of distributions from its private equity investments. By month end, LBPE’s private equity investment level increased to 74.4% of total net asset value. The capital calls that were funded in December were spread fairly evenly across buyout, special situations, and fund of funds investments. A large portion of the distributions that occurred during the month were related to the Company’s portfolio of buyout funds and funds of funds.

The public equity markets continued to trade down over the past month, and many of the publicly traded securities that LBPE is exposed to through private equity funds and co-investments were negatively impacted. In addition, the Company experienced a small net decrease in the value of its private fund investments and recorded a tax expense during the month of December. Including the revaluation of public securities and all other valuation adjustments, LBPE’s unaudited net asset value per share was \$10.31 at 31 December 2007, representing an increase of 3.1% over the initial offering price of \$10.00 per share and a decrease of 0.7% compared to the 30 November 2007 net asset value per share of \$10.38.

Net Asset Value Development

Valuation Methodology

The Company carries its investments on its books at fair value in accordance with accounting principles generally accepted in the United States. The Company uses the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying funds or funds of funds, on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events.

Forthcoming Annual Report

LBPE will issue an annual report as of and for the period ending 31 December 2007 that will include financial statements prepared in accordance with accounting principles generally accepted in the United States. LBPE is required to consider, and will consider, all known material information in preparing such financial statements, including information that may become known subsequent to the issuance of this monthly report. Accordingly, amounts included in the financial statements may differ from this monthly report.

1. Figures provided are unaudited and subject to change. Certain numbers may not total due to rounding.
2. The diversification analysis is based on the diversification of underlying portfolio companies at fair value as estimated by the Investment Manager. The diversification by private equity asset class and vintage year also includes an allocation of net cash flows and valuation adjustments made since financial statements were last received from the investment sponsor. Determinations regarding private equity asset class, geography and industry diversification, as well as the allocation of unfunded commitments (on a total exposure basis), also represent the Investment Manager's estimates. Accordingly, actual diversification of the Company's investment portfolio and the diversification of the Company's investment portfolio on an ongoing basis may vary from the foregoing information.

This document is not intended to be an investment advertisement or sales instrument; it constitutes neither an offer nor an attempt to solicit offers for the securities described herein. This report was prepared using financial information contained in LBPE's books and records as of the reporting date. This information is believed to be accurate but has not been audited by a third party. This report describes past performance, which may not be indicative of future results. LBPE does not accept any liability for actions taken on the basis of the information provided.
