Company Overview

Lehman Brothers Private Equity Partners Limited (“LBPE” or “the Company”) is a closed-end investment company registered under the laws of Guernsey managed by the NB Alternatives group of Neuberger Berman and its affiliates (together, the “Investment Manager”). We invest in private equity funds managed by leading sponsors, including funds of funds managed by the Investment Manager, and make direct private equity investments alongside leading sponsors (“co-investments”). Our investment objective is to produce attractive returns on our capital from our private equity investments while managing investment risk through portfolio diversification across asset class, vintage year, geography, industry and sponsor.

Investment Manager Commentary

LBPE did not commit to any new private equity funds or invest in any direct co-investments in January. The Company invested an aggregate \$3.6 million in private equity investments and received an aggregate \$0.03 million of distributions during the month. As a result, LBPE’s private equity investment level increased to 106% of total net asset value at 31 January 2009. Approximately 42% of the capital deployed in January was invested in growth equity / venture funds, while 30% was invested in buyout funds and 28% was invested in distressed funds.

Based on preliminary valuation information collected through 10 February 2009, LBPE’s unaudited NAV per share was \$8.40 at 31 January 2009 compared to the unaudited 31 December 2008 NAV per share of \$9.41, which was based on information obtained through 12 January 2009. The most significant portion of the decrease (approximately \$1.02) was related to new valuation estimates for fund investments and co-investments at 31 December 2008 based on information that was collected in January. During January, LBPE’s portfolio value decreased as a result of negative foreign exchange adjustments and depreciation in the unrealized value of publicly traded equity securities and credit related fund investments. However, the net effect of share repurchases through the Company’s Liquidity Enhancement Agreement contributed approximately \$0.08 to LBPE’s net asset value per share during January.

Valuation Methodology

The Company carries its private equity investments on its books at fair value using the best information it has reasonably available to determine or estimate fair value. Publicly traded securities are valued based on quoted prices as of the last day of the relevant period less discounts to reflect legal restrictions, if any, that affect marketability. The Company determines such values for publicly traded securities held directly as well as known public positions held in the underlying private equity investments on a look-through basis. The Company estimates fair value for private interests based on a methodology that begins with the most recent information available from the general partner of the underlying fund or the lead investor of a direct co-investment, and considers subsequent transactions, such as drawdowns or distributions, as well as other information judged to be reliable that reports or indicates valuation changes, including realizations and other portfolio company events. The Company proactively re-values its investments before it has received updated information from the fund manager or lead sponsor if it becomes aware of material events that justify a change in valuation.

LBPE will issue an annual report as of and for the period ending 31 December 2008 that will include financial statements prepared in accordance with accounting principles generally accepted in the United States. LBPE is required to consider, and will consider, all known material information in preparing such financial statements, including information that may become known subsequent to the issuance of this monthly report. Accordingly, amounts included in the financial statements may differ from this monthly report.

During January, a total of 723,829 shares were repurchased pursuant to the Agreement at a total net purchase price of approximately \$1,880,535, or an average price per share of approximately \$2.60. There were 17 days in which transactions were conducted, with an average daily repurchase volume of 42,578 shares. The net effect of share repurchases during December contributed approximately \$0.08 to LBPE's net asset value per share. The repurchased shares are held as treasury shares.
